SOLACE+CO Care Instructions

Please periodically check all fittings and re-tighten as necessary.

Upholstered furniture should not be exposed to direct sunlight for long periods.

Please do not place your upholstery in direct contact with a strong heat source. Leave a 30cm gap between upholstery and radiators.

Please do not allow children to jump up and down on the upholstery.

Avoid allowing pets on the upholstery as their claws may cause damage to the fabric.

Avoid sitting on the arms of the upholstery or on the front edge of the seat as this can compress the foam and damage the frame of your upholstery causing premature wear and distortion.

When your new sofa arrives, you may notice that some of the seating or back padding may have been creased or squashed during transit. This can be simply corrected by gently patting back into shape to re-distribute the filling and reshape the covering.

Our fixed cover fabric sofas can be cleaned by using water and a neutral soap to remove stains. Always apply the treatment to a concealed area first to test for colourfastness

Light vacuuming of the sofa will help to prolong the life of the covers. Be very careful, as some vacuum attachments have sharp edge that could damage your sofa.

In the unfortunate event of severe staining on the fabric, take expert advice from a specialist upholstery cleaning company before attempting to clean or remove the stain.

Step by step Assembly Instructions

TOOLS REQUIRED

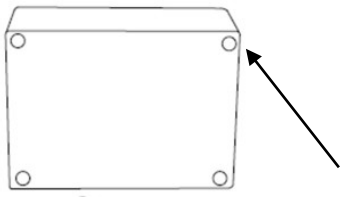
POZIDRIV SCREWDRIVER X 1

PART LIST

PLASTIC LEGS X 4

SCREWS (6CM) X 4

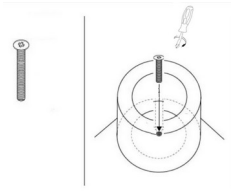
FITTING LEGS INSTRUCTION



1. Spread the removed packing material on the floor to damage to the unit.

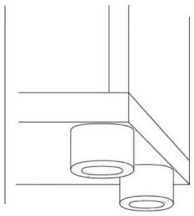
2. Place the unit on its back on the packing material.

3. At the corners of unit locate the pilot holes for the leg fixing screw.



4. Align the legs with the individual pilot holes.

5. Insert a screw supplied through the hole in the leg and into the pilot hole.



6. Tighten the screws with a pozidrive screwdriver, see image below.

7. Carefully turn the unit over without dropping it so the legs are on the floor

8. Carefully lift and carry the unit into its location,

DO NOT DRAG!
